To the admitted students of the Master's degree  
course Scientific Instrumentation

Jena, 28 Jun 2019

Expenditure list master degree course Scientific Instrumentation

Dear Prospective Student

The master degree course “Scientific Instrumentation” is a two years course (four semesters).

The semester fees at our university are presently 224,27 EUR per semester, which includes public transport in the larger region around Jena. There is a one-time fee of 15 EUR for a student ID card. The complete fee for the first semester therefore is 239,27 EUR. The obligatory health insurance is about 90 EUR per month.

The total costs of living are of course very much depending on the individual lifestyle. By planning a total amount of 750 Euro per month you will be on the safe side, and it is certainly possible to get along with less money.

The average amount of 720 EUR per month might consist of:

- Accommodation 270 EUR
- Health insurance 90 EUR
- Food 270 EUR
- Monthly fraction of the semester fee 35 EUR
- Miscellaneous expenses 55 EUR.

Visa regulations require a blocked account with a minimum balance of 8640,-EUR and the remark that the account holder can dispose of a monthly amount of 720 EUR

Sincerely,  
Dr. Danny von Nordheim
