Department SciTec Degree programme SI, WT Module name English for Specific Purposes II Module number GW.2.176 Study and Examination Regulations ER-version 38 (of 21.03.2018), ER-version 39 (of 23.07.2019), ER-version 41 (of 16.07.2021) Compulsory/ compulsory optional/ optional module compulsory optional module Module coordinator Ulrich Schuhknecht Module content - Meetings and discussions on study and work-related topics, e.g. research projects - Scientific texts and articles taken from journals, books and the internet as input for writing tasks - Business English for engineers, e.g. company structure, start-up financial matters, marketing Learning objectives The students are enabled to participate actively in meetings and discus on study and work-related topics. This involves giving information explaining, expressing opinions and reacting appropriately. They develop their writing skills relating to study and work-related text e.g. summaries, reports and abstracts. The course is set at level C1 of the Common European Framework. Course type (lecture, seminar, exercises, practical course) - Dunn, M. et al: English for Mechanical Engineering in Higher Education Studies. Garnet Education, 2010 Recommended literature - Dunn, M. et al: English for Mechanical Engineering in Higher Education Studies. Garnet Education, 2010 Cotrotor, J.: Effective Meeting	
Module name English for Specific Purposes II Module number GW.2.176 Study and Examination Regulations ER-version 38 (of 21.03.2018), ER-version 39 (of 23.07.2019), ER-version 39 (of 23.07.2019), ER-version 41 (of 16.07.2021) Compulsory/ compulsory optional/ optional module compulsory optional module Module coordinator Ulrich Schuhknecht Module content • Meetings and discussions on study and work-related topics, e.g. research projects Earning objectives • Scientific texts and articles taken from journals, books and the intermet as input for writing tasks Learning objectives The students are enabled to participate actively in meetings and discuss on study and work-related topics. This involves giving informatior explaining, expressing opinions and reacting appropriately. They develop their writing skills relating to study and work-related text e.g. summaries, reports and abstracts. They acquire business-related vocabulary and language skills releva engineers. Course type (lecture, seminar, exercises, practical course) 0 L – 0 S – 3 E – 0 P Recommended literature • Dunn, M. et al: English for Mechanical Engineering in Higher Education Studies. Garnet Education, 2010 Cortor, J. : Effective Meetings, OUP, 2005 • Billet, D.: Technical Writing Today. Media Corporation, 2005 Education Studies. Which semester during the programme 2	
Requirements for attendance , Successful completion of the module "Technical English" or equir	/alent
necessary knowledge (Level B2 of the Common European Framework)	5.011
Assessment (written/ oral test, paper, etc.) Alternative examination	
ECTS credits 3	
Work load in: 90 h of total work load, therefrom	
 45 h of presence at university 	
45 h of self-study	
Usability of this module All study programmes containing a C1 level ESP module	
Frequency of offer Every study year	
Duration of module 1 semester	
Place/ room Ernst-Abbe-Hochschule Jena - University of Applied Sciences Jena	
Time According to schedule	
Language(s) English
