Springer

25th International Conference
on
Innovations for Community Services

June 11 - 13, 2025
Munich, Germany

"Celebrating I4CS' Quarter-Century"

CCIS

Call for Papers

I4CS invites submissions of unpublished papers presenting research results, industrial experiences and applications, as well as detailed specifications of open problems. Electronic submission is mandatory. Full papers of no more than 20 pages, written in American English should be submitted as PDF files at the EasyChair conference management system: https://easychair.org/conferences/?conf=i4cs2025. All submitted papers will be subject to a single-blind review process by at least three program committee members.

I4CS, ranked as C-level in CORE, will publish their proceedings with Springer in Communications in Computer and Information Science (CCIS) series. In addition, the papers will be sent to indexing libraries e.g., DBLP, Scopus.

Important Dates

- February 23, 2025   Paper submission
- March 23, 2025   Authors' notification
- March 30, 2025   Camera-ready copies
- March 30, 2025   Presenters' registration
- **June 11 - 13, 2025**   **Conference**

or e-mail info@i4cs-conference.org
or contact our chairs directly.

Topics

Community systems, foundations, technology, applications as well as socializations. The topics include, but are not limited to original work to be presented in person at the conference in the following areas:

Technology:
Emerging Architectures and Frameworks
- Data architectures and enablers for community services
- Cryptography and cryptology
- 5G/6G technologies and ad-hoc wireless networks
- Data models, analytics, and big data management
- Quantum and cloud computing

Applications:
Smart Communities on the Move
- Social networks, open data, and distributed coworking
- Barrier-free collaboration, publishing, and eLearning
- Recommender solutions and chat bots
- Virtual & augmented reality, robotics, and mobile e-sports
- Intelligent traffic, logistics, and connected cars

Socialization:
Ambient Work and Living
- Distributed work challenges and eHealth-assisted living
- Machine Learning, human-centered AI, and governance
- Smart home, energy control, and public infrastructure
- Internet of things and dynamic sensor networks
- Cyber- and information security
